

Bug Report-UI

Project: ITQA Module-Group-29

Bug ID: BUG _UI_001

Date Reported: 01/01/2025

Reported by: Mr Jeewantha Kodikara

Assigned to: 205104P Shobisha S.M.

Status: New

Priority: High

Severity: Major

Component: UI

Summary: Unable to proceed to "Checkout: Overview" page when performing checkout as problem_user

Description: When logged in as problem_user and attempting to proceed with the checkout process, the application fails to navigate to the "Checkout: Overview" page after the user fills in the required details such as First Name and Last Name. Instead, the page remains stuck on the form where user details are entered. This issue prevents the user from completing the checkout process successfully, disrupting the user experience and functionality for problem_user.

Bug ID: BUG _UI_002

Date Reported: 01/01/2025

Reported by: Mr Jeewantha Kodikara

Assigned to: 205104P Shobisha S.M.

Status: New

Priority: High

Severity: Major

Component: UI

Summary: Product images are not unique for each item when logged in as “problem_user”

Description: When logged in as the "problem user," all product items display the same image instead of unique images for each product. This issue misrepresents the products and leads to confusion for users attempting to distinguish between items based on their visual representation.

Bug ID: BUG _UI_003

Date Reported: 01/01/2025

Reported by: Mr Jeewantha Kodikara

Assigned to: 205111J - Upananda D.D.B

Status: New

Priority: High

Severity: Major

Component: UI

Summary: "Remove" button fails to function after adding product to cart

Description: When logged in as the "problem user," the functionality to add a product to the cart works as expected. Clicking the "Add to Cart" button successfully adds the product, and the button's label changes to "Remove," indicating the product has been added. However, the issue arises when attempting to remove the product from the cart by clicking the "Remove" button. Despite clicking the button, the product remains in the cart, and the button's state does not revert to "Add to Cart".

Summary: Facebook link directs to an incorrect page

Description: The Facebook social media icon on the product page does not redirect to the correct Facebook page link when the user is not logged into the browser. Instead, it redirects to a generic or incorrect Facebook page, causing confusion and failing to meet user expectations for social media redirection functionality.
